

Water Valves : 2 / 3 motorized valves

3/4" 3 way

3/4" 2 way

Copper Alloy 2/3 Way Valves (item no.)

2 way valve		3 way valve	
3/4"	2P-01 (110V)	3/4"	3P-01 (110V)
	2P-02 (220V)		3P-02 (220V)
1"	2D-01 (110V)	1"	3D-01 (110V)
	2D-02 (220V)		3D-02 (220V)

Customized pipe fittings for motorized valves.

Design Patent NO 275365 275366

2 Way Valve : Can be used instead of 3 way valves, when chiller has a by-pass valve

Features

1. Double spring design prevents breakage.
2. Can be activated with a low voltage Unique mechanism, UL and CSA certified powerful motor. (MAMS)
3. Aluminum Alloy motor casing, completely metallic and protects against fire.
4. Valve balls, little noise.
5. Cold Stoppage control system.

- Copper Alloyed 2/3 way valves (3/4", 1") with detachable motor and valve.

- Liquid temperature <94°C (allows both hot and cold fluids)

- Environment Temperature < 40°C

- Pressure resistance 25Kgs/cm²

- Applicable mediums : Cold water, hot water, Brine

- Double spring design, average torque, no water flow noises.

- UL, ETL and CSA certified motor.

For use in large buildings such as offices, schools, industrial parks, MRT, HSR.
