- Compare, analysis datas and produce statistical charts.
- Test, review, assess and revise.
- Conclusive report is produced with ease.

Results
& Charts

Conference **WITHOUT** IRS vs. Conference **WITH** IRS Comparison table.

Conference **WITHOUT** IRS

- The host, speaker is difficult to exchange opinion with the listener.
- Only one person can response to the presentation at one time.
- Collect votes, opinions and produce statistics are time consuming.
- Meeting reports and records can only be made by hand.
- Attention is easily dispersed.

Conference **WITH** IRS

- Everyone has a remote control in hand, it will increase the level of participation.
- Collect everyone's views and opinions at once.
- Automatically record contents of the meeting & activity. Easy to produce the report.
- The conference will be more efficient and smooth.
- Automatically group people, people's response data is easier to be compared.
- The speaker and the listener is more interactive. A 2 directional communication is easy and instant.
- Avoid misunderstanding.
- It takes the same amount of preparation time, but the content becomes more interesting and fascinating.

Use instant voting system in your presentations to achieve the best impact.

Integrate IRS with PowerPoint and Google Drive

- ✓ Just edit the IRS Q & A page, you can easily convert the original PPT into interactive teaching materials, Do not need to re-create the whole.
- ✓ After editing, you can directly store the cloud, access to share, easy to simple!
